### ABOUT ME

I am a driven and aspirational engineering student eager to start an internship experience that will further ignite my enthusiasm for education and professional growth. With a strong problem solving skills, I'm eager to apply what I've learned in the classroom to real-world situations and contribute to a dynamic team.

In pursuing this internship, my goal is to not only enhance my skills but also make a meaningful contribution to your team's success. I look forward to embracing the challenges, absorbing the knowledge, and growing both personally and professionally during this internship opportunity.

---

### SKILLS

**React.js:** Proficient in creating responsive and interactive web applications using React.js, including state management with Redux.

**C++:** Strong foundation in C++ programming, with expertise in data structures and algorithms for software development.

**Problem-Solving:** Strong analytical and problem-solving skills honed through coding challenges and real-world projects.

---

### WORK EXPERIENCE

- Developed a personal website from scratch using React.js, showcasing my skills, portfolio. The website serves as an interactive platform to highlight my technical expertise and share my experiences in Web Development
- Utilized React Router for seamless navigation and smooth transitions between different sections of the website.
